Profile Summary

Project-oriented Computer Science undergraduate with hands-on experience in end-to-end feature delivery, stakeholder coordination, and agile execution. Demonstrated ability to manage cross-functional workflows, track deliverables, and drive on-time releases within sprint-based environments. Strong foundation in requirement analysis, risk identification, and scope management with a focus on measurable outcomes and structured problem-solving.

Skills

Project Management Tools: Jira, Confluence, Google Sheets, MS Excel

Technical Skills: Python, SQL, REST APIs, JSON, Basic Data Analysis

Platforms: Git, GitHub, VS Code, Tableau, Power BI

PM Skills: Stakeholder Management, Requirement Analysis, Risk Identification, Milestone Tracking, Scrum, Sprint Planning, Backlog Refinement, Resource Coordination, Scope Management, Status Reporting, Agile Methodology

Soft Skills: Critical Thinking, Leadership, Team Management, Communication

Experience

Product and Feature Support Intern

Jan 2026 – Ongoing

Femira (by Meraji)

- Managed end-to-end lifecycle of 5+ features across 3 sprint cycles, from requirement gathering to production release, ensuring on-time delivery aligned with business objectives.
- Translated ambiguous problem statements into structured product briefs, reducing back-and-forth with the engineering team by ~30%.
- Identified and documented 8+ usability bottlenecks, proposing workflow optimisations that improved task completion clarity for the core user flow.
- Coordinated cross-functional stakeholders (design, engineering, QA) across weekly stand-ups and sprint retrospectives, improving release predictability.
- Contributed to backlog refinement and sprint planning within an agile framework, prioritising features by impact, feasibility, and user need.

Projects

Project Synapse – AI-Powered Delivery Platform [\[Github\]](#) [\[Live\]](#)

Aug 2025 – Oct 2025

- Led end-to-end project planning and delivery of a role-based delivery management platform within an 8-week timeline, coordinating design and development milestones.
- Defined project scope, feature prioritisation matrix, and acceptance criteria for customer and rider dashboard modules.
- Managed risk of scope creep by freezing core deliverables in week 2 and tracking progress via a Notion-based task board.

Sahayak AI – Intelligent Assistance System [\[Github\]](#)

Dec 2024 – Jan 2025

- Coordinated a 2-person team to ship an NLP assistant in 6 weeks, maintaining a weekly delivery checklist and tracking blockers in real time.
- Defined conversational flow requirements and validated against 3 user testing rounds before final release.

MEDIBOT – AI Teleconsultation Platform [\[Github\]](#)

Jul 2024 – Aug 2024

- Scoped and delivered a teleconsultation platform MVP in 5 weeks; documented user journey maps, workflow diagrams, and feature acceptance criteria.

Education

Vellore Institute of Technology, Bhopal

Oct 2022 – Oct 2026

B.Tech in Computer Science and Engineering (Educational Technology)

CGPA: 7.92

Achievements, Awards & Activities

- **Vice President, Edu4U Club:** Led and managed a team of 30+ members, successfully planning and executing large-scale events for 300+ participants – directly comparable to project coordination at scale.
- **Top 20, GrabHack (National Level):** Demonstrated structured problem-solving and delivery under pressure among competing national teams.
- **Lead Volunteer, TCS Campus Recruitment:** Coordinated logistics and communication between 3 stakeholder groups (corporate, placement cell, candidates), ensuring smooth event execution.
- Designed and implemented structured onboarding workflows for new club members, reducing ramp-up time and improving operational continuity.

Certifications

- Google Project Management Certificate – Coursera Oct 2025
- Generative AI – Oracle Oct 2025
- AWS Certified Cloud Practitioner – AWS Jan 2026
