

Akarsh Jain

jainakarsh2805@gmail.com — +91 9399800172 — [LinkedIn](#) — [GitHub](#)

Professional Summary

Computer Science undergraduate with hands-on experience in software testing and web development. Worked on functional testing, basic API validation using Postman, and handling bugs through tools like Jira. Comfortable writing test cases, doing regression testing, and understanding Agile workflows. Also have experience building and working on frontend applications using React and Tailwind. Looking to contribute to a team where I can improve product quality while continuing to grow as a developer.

Technical Skills

Languages & Database : Java, Python, MySQL, SQL

Web & CMS: HTML5, CSS3, JavaScript, WordPress

Backend & APIs: REST APIs, FastAPI (basic), JSON, JWT

Tools: Jira, Postman, Git, GitHub, VS Code

Cloud: AWS , Google Cloud

Testing: Manual Testing, Test Case Design, Test Scenarios, Bug Lifecycle, Regression Testing, Sanity Testing, Black-box Testing, White-box Testing, UAT, Defect Management, Test Plan Writing, Boundary Value Analysis, Equivalence Partitioning

Concepts: SDLC, STLC, Agile, API Testing

Experience

Full-Stack Developer & QA Practitioner, Femira (by Meraji), Indore

Jan 2026 – Present

React.js, Tailwind CSS, REST APIs, SQLModel, WordPress, Jira, JWT

- Tested application features across frontend and backend to ensure smooth functionality.
- Wrote and executed test cases based on requirements and identified key issues.
- Logged and tracked bugs with clear steps, and worked with developers to resolve them.
- Took part in Agile processes including sprint planning and regular team updates.

Projects

Project Synapse—AI-Powered Delivery Platform [\[GitHub\]](#) [\[Live Demo\]](#)

Aug 2025 – Oct 2025

React.js, Tailwind CSS, REST APIs, SQLModel, Leaflet.js, Postman, JWT

- Tested core features like order tracking, dashboards, and role-based access across 25+ scenarios.
- Performed API testing using Postman, validating 15+ endpoints for response accuracy and data flow.
- Reported and tracked 20+ bugs, and contributed to minor UI fixes to improve overall usability.

Sahayak AI – Intelligent Assistant System [\[GitHub\]](#)

Dec 2024 – Jan 2025

Python, NLP, REST APIs, AI Models

- Tested chatbot workflows for different user queries to improve response accuracy and intent handling.
- Validated outputs with edge cases and varied inputs to ensure consistent system behavior.
- Identified logical gaps in responses and suggested improvements to enhance reliability.

MEDIBOT – AI-Enabled Teleconsultation System [\[GitHub\]](#)

Jul 2024 – Aug 2024

React.js, Tailwind CSS, REST APIs, AI/NLP Concepts

- Performed end-to-end testing of patient workflows including login, consultation, and interaction flows.
- Conducted cross-browser and device testing to ensure consistent performance across platforms.
- Logged and tracked UI and functional issues, helping improve system stability and user experience.

Education

Vellore Institute of Technology, Bhopal

Sept 2022 – July 2026

B.Tech in Computer Science and Engineering

CGPA: 7.92

Achievements & Activities

- Secured Top 20 position in GrabHack among national-level teams.
- Participated in hackathons like SIH, EY, Amazon, Myntra, Adobe, and TVS, working on real-world problem solving and rapid prototyping.
- Served as Student Coordinator for TCS Campus Recruitment, managing candidate flow and ensuring smooth execution.
- Vice President of Edu4U Club, organizing workshops and leading student engagement initiatives.
- Completed Generative AI Virtual Internship with Google Cloud (SmartBridge), gaining exposure to API-based applications and system validation.

Certifications

- AWS Certified Cloud Practitioner [AWS](#)
- Oracle OCI Generative AI Professional [Oracle](#)
